

World of Ace, Mai and Shammy

NOTE! Archive is temporary offline, I'm tracking one major showstopper bug, hopefully things can get back to normal at the end of this week latest!

Welcome to the canonical archive of the Ace & Mai universe — a layered narrative system built on identity, pressure, and equilibrium.

This archive serves as the structural backbone of the world: characters, timelines, operational doctrines, multiversal architectures, and convergence logic are documented here in structured continuity form.

This is not a loose anthology. It is a deliberately constructed multi-level narrative continuum.

The archive continues to expand over time. Established canon remains stable. **No lore required. Just step in.**
